## Briggs New Assistant To County School Supt.

**Appointment to Vacant Post May Affect June Primary Election Race**

Harold Eugene Briggs, Mitchell grade school principal, was today named by Madison County Schools' Wilbur R. L. Trimppe as assistant county superintendent.

The appointment was regarded as bolstering Trimppe's re-election chances by attracting support from part of the major county political faction.

The county Democratic central committee has endorsed Trimppe's opponent Russell Shaver, who reportedly would choose Vasil Eftimoff, a Prather junior high school teacher, as his assistant.

The Trimppe-Shaver race will be decided in the June primary election.

The assistant vacancy developed when Fred Wakefield, a Democratic organization split Raymond Dragich of Madison left Trimppe's office to administer federally-financed education programs in the Madison school system.

### Changeover This Month

In the meantime, Fred Wakefield, a former free school superintendent, has been acting assistant county superintendent.

Under terms of his retirement plan, Wakefield is limited to 75 days' work, Trimppe said in explaining the timing of Briggs' appointment.

The local principal will continue his duties through the spring term but will also devote attention to county office beginning in late April, Trimppe said; the position will become full-time in June.

### Martin Corps Major

Today's announcement stressed Briggs' experience. A member of the faculty at the former St. Paul's Seminary in Kingsbury, Ill., he served in the Marine Corps from 1951 to 1954 and is a reserve major. He taught at Webster grade school in 1954-55 and was head of grades school principal and part-time teacher in 1955-56.

For the past 10 years, Briggs has been Mitchell school principal. He holds a bachelors degree in education from Illinois and a master's degree from Southern Illinois University and has done graduate work at SIU.

He is a member of Nurturing-Loving, a church group, and various educational and professional organizations and is a charter member of the Delta Alpha chapter of Phi Delta Kappa fraternity. He has been a past-president of the Mitchell PTA membership by the year.

He is married to the former Elizabeth Ann Phillips of Flora, Ill., and they have two sons, aged 12 and 10. They reside at 320 W. Main Street.

Trimppe praised Briggs' record and said the Mitchell school reflects his ability as an educational leader.

## Venice Considers Legal Action to Halt Plant Smoke

The Venice city council Friday night instructed City Attorney Harry F. Fournier to determine what legal action the city could take to order the Fox Brothers Co. of Madison to not emit smoke that reaches the North Venice area.

Concern was voiced over the condition of autos, paint on houses and interior furnishings.

The action was taken on the suggestion of Dr. John E. Lee, environmental engineer with the city engineer's department.

More stringent enforcement of present traffic laws also is needed for reducing the four-per-cent rate.

Crackdown Is City's Duty

He warned that the intensified enforcement of traffic laws creates resentment. "However, it is our duty to protect our citizens and to accomplish the task of cutting down the vehicular accident rate."

As an example, he pointed to the 20th and Madison avenue intersection where there are frequent crashes. He said a sign at the intersection recommended in over a dozen arrests of motorists running red lights, and now the number of accidents had dropped off almost to nothing.

Mayor Partney, introduced by Ward Z. Farnington, program chairman, received a standing ovation.

**Vacant Built**

The council also voted Friday night to proceed with legal action to obtain either repair or razing of the old Kingsbury tavern building at 401 Weaver street.

Hartman said it would be suggested the residents band together in a joint movement to file infringement claims in small claims court.

## Boy, 10, Finds Wallet Owned by Deputy

Locality still is the best policy, according to ten-year-old David A. Fuzessery of 1420 Madison avenue, who took home a wallet he found and has received the personal thanks from the family of the man from whom the wallet was taken.

Mrs. Frank Fuzessery, David's mother, said the boy found the wallet containing three \$2 bills and several old coins on a street at 14th street and Madison avenue. ## Legal Aid Program Under Study by County EOC Group

Madison County Economic Opportunity Commission will consider adoption of a legal aid services program with an estimated annual budget of \$65,000 at 7:30 a.m. today during a meeting in the county supervisor's office at Edwardsville.

James M. Bailey, Madison county EOC president, said an attorney will be present in conjunction with the commission meeting to afford all interested county residents an opportunity to learn further details on the anti-poverty project.

Plans for the proposed legal aid service were finalized this weekend under the auspices of the Madison County EOC and the county EOC group.

Completion of the proposal followed a briefing session Thursday in East St. Louis, when representatives of the Illinois Office of Economic Opportunity, Washington, D. C., the Great Lakes Regional EOC, Chicago, and the Illinois Office of Economic Opportunity met to discuss a major community action program from several Illinois counties and agencies.

At the session, officials outlined a correct procedure for setting up legal aid societies under the anti-poverty program through which professional services will be made available to persons unable to afford legal counsel, Bailey said.

Funds for the new service will be provided from Madison county EOC's \$412,000 fiscal allotment.

The county EOC officer, who attended the meeting with Harry Marshall of Alton, has recommended the creation of a 20-mile-per-hour school speed zone at East 23rd and Louis streets, using a radar. Sunmoned for hearings on April 29

Linson Shop Directors Elected Two Officers

Linson Shops, Inc., St. Louis operators of a women's apparel store, elected two officers to the directorate, the board of directors and officers of the company J. Richard Critchfield as secretary and Barton L. Lieberman as treasurer.

The board appointed James Froessel as vice-president, general manager of store operations and George Steinmetz as display director, the post formerly held by Froessel.

A grant to cover the cost of the project is to be forwarded to the state office immediately after the results are given by the commission members.

Bailey also told the Press-Record that Maurice S. Harrington, executive director, submitted the plan for the proposed aid plan for Madison county, which was conceived through joint efforts by special committees appointed from the attorney's association and the anti-poverty committee.

As a first class post office cannot accept most parcels of more than 20 pounds or more than 72 inches in length, the post office is going to another first class post office 150 or more miles away.

Such parcels sent by private express cost much higher charges,

as by parcel post, Overbeck pointed out.

New legislation would provide limits of 40 pounds and 100 inches, with resulting savings for Quad-City mailers, he said.

## 8 Weekend Crimes Include Clothing Store Burglary

Theft of an undetermined amount of clothing by burglars who were frightened away by a troupe of Boy Scouts. At about the time of the theft of more than \$200 in cash from a residence along Nameekoo road were among a series of weekend crimes reported by Quad-City area authorities. Two stolen automobiles were found.

Two young men burglarized Tritter's clothing store at Nameekoo village at 10 p.m. Saturday before being frightened away by a Boy Scout troupe camping on the shopping center parking lot.

Scouts officials credited the scouts with preventing a larger amount of clothing from being taken during Saturday's early morning fog.

The exact amount of the loot was not initially determined, but the apparel removed was in two specific sizes, indicating that the burglars may have been selecting clothing for their own use rather than for re-sale through a "fence."

In their haste to escape arrest, they dropped several items and some clothing left behind lying on the walk in front of the store.

The thieves had first tried to enter the store by prying on the front door with a tire tool. When this failed, they broke out a plate glass next to the door and crawled through.

When the scouts became aware of the burglars' presence, they kept them under surveillance and summoned Jimmie Stubbs of Scott Air Force Base left to call police. The intruders fled before officers arrived.

all codes zoning classification... and others, the report states.

The federal government has recently appropriated funds to assist in the establishment of a central data bank to include such information as juvenile justice, probation and public welfare records so that information can be disseminated uniformly and quickly.

The purpose of providing for centralized data banks in relation to governmental police or regulatory powers could be investigated for possible use in this area, according to the sectional report.

**Review Study Group**

Also emphasized by the report is the fact that the federal Department of Housing and Urban Development now requires the establishment of a code study group.

"This group," says the report, could be very influential in standardizing minimum code requirements throughout the state.

Its membership may be drawn from such people as building inspectors, city engineers, health officers, fire chiefs, police with duties and experience related to codes; representatives of local business interests such as homebuilders, architects, contractors, plumbers, electricians and real estate men; leaders from community civic groups and representatives of local governments.

Control ordinances such as zoning and subdivision are more widely used in Madison and St. Clair counties than are the other planning devices, the report states.

The four types most frequently used in the bi-county area are zoning ordinances, subdivision control ordinances, mobile home regulations and traffic control ordinances. There has been more emphasis by communities on limited scope ordinances than on broad control measures, the report adds.

"For example, mobile home ordinances have been adopted in many communities as a group in contrast to the increasing number of limited relationships and service problems. Today, zoning ordinances have been less adopted, however, zoning ordinances indicating less concern with the broader problems of appropriate land use.

Government positions pay high starting salaries. They offer many opportunities for those men and women who want them; there, or because they believe the magic of the college degree will get them favored attention.

Those who have been presented awards by Colonel Charles R. Schweizer, depot commander, include Raymond M. Hogan, 265 Adams Avenue; Mrs. Wilma Hicks, 1840 Spring Avenue; Mrs. Dorothy Shepard, 1744 Primrose Avenue; Steve Bulla, 3153 Davis Avenue; Leonard Taylor, 1635 Edison Avenue; Fred Clegg, 2806 Buxton Avenue; and Clarence E. Jowers, Wood River.

All received suggestion awards except Mrs. Shepard, who was presented an outstanding performance award.

Lincoln Service has helped thousands prepare for these examinations for 12 years.

It is one of the largest and oldest privately owned and operated service organizations connected with the Government.
